

List of opcodes

This is a list of all opcodes, including nops and unsupported ones, in [GTA III](#), [Vice City](#), and [San Andreas](#). Brief descriptions and notes are added to the list for quick and easy access to information.

Opcode 	P 	Parameter type 	Games 	Brief description 	Notes 
0000	0	nop	  	no operation	special use in CLEO
0001	1	int	  	wait	
0002	1	label	  	jump to label	
0003	1	int	  	shake camera	
0004	2	global var, int	  	set global to integer ($G = I$)	
0005	2	global var, flt	  	set global to float ($G = F$)	
0006	2	local var, int	  	set local to integer ($L = I$)	
0007	2	local var, flt	  	set local to float ($L = F$)	
0008	2	global var, int	  	add global to integer ($G += I$)	
0009	2	global var, flt	  	add global to float ($G += F$)	
000A	2	local var, int	  	add local to integer ($L += I$)	
000B	2	local var, flt	  	add local to float ($L += F$)	
000C	2	global var, int	  	subtract global to integer ($G -= I$)	
000D	2	global var, flt	  	subtract global to float ($G -= F$)	
000E	2	local var, int	  	subtract local to integer ($L -= I$)	
000F	2	local var, flt	  	subtract local to float ($L -= F$)	
0010	2	global var, int	  	multiply global to integer ($G *= I$)	
				multiply global to float ($G *=$	

0011	2	global var, flt		multiply global to float (G = F)	
0012	2	local var, int		multiply local to integer (L *= I)	
0013	2	local var, flt		multiply local to float (L *= F)	
0014	2	global var, int		divide global to integer (G /= I)	
0015	2	global var, flt		divide global to float (G /= F)	
0016	2	local var, int		divide local to integer (L /= I)	
0017	2	local var, flt		divide local to float (L /= F)	
0018	2	int, int		check global greater than integer (G > I)	
0019	2	int, int		check local greater than integer (L > I)	
001A	2	int, int		check integer greater than global (I > G)	
001B	2	int, int		check integer greater than local (I > L)	
001C	2	int, int		check global integer greater than global int (G > G int)	
001D	2	int, int		check local integer greater than local int (L > L int)	
001E	2	int, int		check global integer greater than local int (G > L int)	
001F	2	int, int		check local integer greater than global int (L > G int)	
0020	2	float, float		check global greater than float (G > F)	
0021	2	float, float		check local greater than float (L > F)	

0022	2	float, float		check float greater than global (F > G)	
0023	2	float, float		check float greater than local (F > L)	
0024	2	float, float		check global float greater than global float (G > G fit)	
0025	2	float, float		check local float greater than local float (L > L fit)	
0026	2	float, float		check global float greater than local float (G > L fit)	
0027	2	float, float		check local float greater than global float (L > G fit)	
0028	2	int, int		check global greater than or equal to integer (G >= I)	
0029	2	int, int		check local greater than or equal to integer (L >= I)	
002A	2	int, int		check int greater than or equal to global (I >= G)	
002B	2	int, int		check integer greater than or equal to local (I >= L)	
002C	2	int, int		check global integer greater than or equal to global integer (G >= G int)	
002D	2	int, int		check local integer greater than or equal to local integer (L >= L int)	
002E	2	int, int		check global integer greater than or equal to local integer (G >= L int)	
002F	2	int, int		check local integer greater than or equal to local integer (L >= G int)	
0030	2	float, float		check global greater than or equal to float (G >= F)	
				check local greater than or	

0031	2	float, float		check local greater than or equal to float (L >= F)	
0032	2	float, float		check float greater than or equal to global (F >= G)	
0033	2	float, float		check float greater than or equal to local (F >= L)	
0034	2	float, float		check global float greater than or equal to global float (G >= G flt)	
0035	2	float, float		check local float greater than or equal to local float (L >= L flt)	
0036	2	float, float		check global float greater than or equal to local float (G >= L flt)	
0037	2	float, float		check local float greater than or equal to global float (L >= G flt)	
0038	2	int, int		check global equal to integer (G == I)	
0039	2	int, int		check local equal to integer (L == I)	
003A	2	int, int		check global integer equal to global integer (G == G int)	
003B	2	int, int		check local integer equal to local integer (L == L int)	
003C	2	int, int		check global integer equal to local integer (G == L int)	
003D	0			unsupported	
003E	0			unsupported	
003F	0			unsupported	
0040	0			unsupported	
0041	0			unsupported	
				check global equal to float	

0042	2	float, float		check global equal to float (G == F)	
0043	2	float, float		check local equal to float (L == F)	
0044	2	float, float		check global float equal to global float (G == G f1t)	
0045	2	float, float		check local float equal to local float (L == L f1t)	
0046	2	float, float		check global float equal to local float (G == L f1t)	
0047	0			unsupported	
0048	0			unsupported	
0049	0			unsupported	
004A	0			unsupported	
004B	0			unsupported	
004C	1	label		jump to label if true	
004D	1	label		jump to label if false	
004E	0			terminate this script	
004F	-1	label		start new script with args	
0050	1	label		gosub	
0051	0			return	
0052	6			nop	
0053	5	int, float, float, float, player handle		create player	parameters rearranged in SB
0054	4	player handle, var, var, var		get player coordinates	
0055	4	player handle, int, int, int		set player coordinates	
0056	6	player handle, float, float, float, float, int		check player is in 2D area	parameters rearranged in SB
0057	8	player handle, float, float, float, float, float, float, int		check player is in 3D area	parameters rearranged in SB
0058	2	int, int		add global integer to global integer (G += G int)	
				add global float to global	

0059	2	float, float		add global float to global float (G += G flt)	
005A	2	int, int		add local integer to local integer (L += L int)	
005B	2	float, float		add local float to local float (L += L flt)	
005C	2	int, int		add local integer to global integer (L += G int)	
005D	2	float, float		add local float to global float (L += G flt)	
005E	2	int, int		add global integer to local integer (G += L int)	
005F	2	float, float		add global float to local float (G += L flt)	
0060	2	int, int		subtract global integer to global integer (G -= G int)	
0061	2	float, float		subtract global float to global float (G -= G flt)	
0062	2	int, int		subtract local integer to local integer (L -= L int)	
0063	2	float, float		subtract local float to local float (L -= L flt)	
0064	2	int, int		subtract local integer to global integer (L -= G int)	
0065	2	float, float		subtract local float to global float (L -= G flt)	
0066	2	int, int		subtract global integer to local integer (G -= L int)	
0067	2	float, float		subtract global float to local float (G -= L flt)	
0068	2	global, global		multiply global int to global int (G *= G int)	
0069	2	global, global		multiply global float to global float (G *= G flt)	
				multiply local int to local int	

006A	2	local, local		multiply local int to local int (L *= L int)	
006B	2	local, local		multiply int float to int float (L *= L fIt)	
006C	2	local, float		multiply local to float (L *= F)	
006D	2	global, float		multiply global to float (G *= F)	
006E	2	global, local		multiply global int to local int (G *= L int)	
006F	2	global, local		multiply global float to local float (G *= L fIt)	
0070	2	global, global		divide global int by global int (G /= G int)	
0071	2	global, global		divide global float by global float (G /= G fIt)	
0072	2	local, local		divide local int by local int (L /= L int)	
0073	2	local, local		divide local float by local float (L /= L fIt)	
0074	2	local, global		divide local int by global int (L /= G int)	
0075	2	local, global		divide local float by global float (L /= G fIt)	
0076	2	global, local		divide global int by local int (G /= L int)	
0077	2	global, local		divide global float by local float (G /= L fIt)	
0078	2

007F	2				
0080	2				
0081	2				
0082	2				
0083	2				
0084	2	global, global		set global integer equal to global integer (G = G int)	
0085	2	local, local		set local integer equal to local integer (L = L int)	
0086	2	global, global		set global float equal to global float (G = G flt)	
0087	2	local, local		set local float equal to local float (L = L flt)	
0088	2	global, local		set global float equal to local float (G = L flt)	
0089	2	local, global		set local float equal to global float (L = G flt)	
008A	2	global, local		set global integer equal to local integer (G = L int)	
008B	2	local, global		set local integer equal to global integer (L = G int)	
008C	2	int, float		convert global float to global int	
008D	2	float, int		convert global int to global float	
008E	2	int, float		convert local float to global int	
008F	2	float, int		convert local int to global float	
0090	2	int, float		convert global float to local int	

0091	2	float, int		convert global int to local float	
0092	2	int, float		convert local float to local int	
0093	2	float, int		convert local int to local float	
0094	1	int		absolute value of global int	
0095	1	int		absolute value of local int	
0096	1	float		absolute value of global float	
0097	1	float		absolute value of local float	
0098	1	float		generate random float	
0099	1	int		generate random integer	
009A	6	int, int, flt, flt, flt, char handle		create char	parameters rearranged in SB
009B	1	char handle		delete char	
009C	2	char handle, int		set char to wander path	
009D	0			unsupported	
009E	6	char handle, flt, flt, flt, flt, int		set char path	
009F	1	char handle		set char objective to - 1	
00A0	4	char, var, var, var		get char coordinates	
00A1	4	char, flt, flt, flt		set char coordinates	
00A2	1	char handle		check char alive	
00A3	6	char handle, flt, flt, flt, flt, int		check char is in 2D area	
00A4	8	char handle, flt, flt, flt, flt, flt, flt, int		check char is in 3D area	
00A5	5	int, flt, flt, flt, car handle		create car	parameters rearranged in SB
00A6	1	car handle		delete car	
00A7	4	car handle, flt, flt, flt		car drive to coordinate	
00A8	1	car handle		set car to psycho driver	
00A9	1	car handle		reset car from psycho driver	

00AA	4	car handle, var, var, var	  	get car coordinates	
00AB	4	car handle, flt, flt, flt	  	set car coordinates	
00AC	1	car handle		check car is on land	
00AD	2	car handle, flt	  	set car max speed	
00AE	2	car handle, int	  	set car traffic behavior	
00AF	2	car handle, int	  	set car driver behavior	
00B0	6	car handle, flt, flt, flt, flt, int	  	check car is in 2D area	
00B1	8	car handle, flt, flt, flt, flt, flt, flt, int	  	check car is in 3D area

00D5	0			unsupported	
00D6	1	int		if	
00D7	1	label		start new script	like 004F but only one parameter
00D8	0			mission cleanup	
00D9	2	char handle, var		get char's car	mission only, parameters rearranged in SB
00DA	2	player handle, var		get player's car	mission only, parameters rearranged in SB
00DB	2	char handle, car handle		check char is in car	
00DC	2	player handle, car handle		check player is in car	
00DD	2	char handle, int		check char is in car model	
00DE	2	player handle, int		check player is in car model	
00DF	1	char handle		check char is in any car	
00E0	1	player handle		check player is in any car	
00E1	2	int, int		check key is pressing	
00E2	2	int, int, var		get key is pressing	

00E3	6	player handle, flt, flt, flt, flt, int		locate player by any means in 2D radius	parameters rearranged in SB
00E4	6	player handle, flt, flt, flt, flt, int		locate player on foot in 2D radius	parameters rearranged in SB
00E5	6	player handle, flt, flt, flt, flt, int		locate player in car in 2D radius	parameters rearranged in SB
00E6	6	player handle, flt, flt, flt, flt, int		locate player stopped by any means in 2D radius	parameters rearranged in SB
00E7	6	player handle, flt, flt, flt, flt, int		locate player stopped on foot in 2D radius	parameters rearranged in SB
00E8	6	player handle, flt, flt, flt, flt, int		locate player stopped in car in 2D radius	parameters rearranged in SB
00E9	5	player handle, char handle, flt, flt, int		locate player by any means near char in 2D radius	parameters rearranged in SB
00EA	5	player handle, char handle, flt, flt, int		locate player on foot near char in 2D radius	parameters rearranged in SB
00EB	5	player handle, char handle, flt, flt, int		locate player in car near char in 2D radius	parameters rearranged in SB
00EC	6	char handle, flt, flt, flt, flt, int		locate char by any means in 2D radius	parameters rearranged in SB
00ED	6	char handle, flt, flt, flt, flt, int		locate char on foot in 2D radius	parameters rearranged in SB
00EE	6	char handle, flt, flt, flt, flt, int		locate char in car in 2D radius	parameters rearranged in SB
00EF	6	char handle, flt, flt, flt, flt, int		locate char stopped by any means in 2D radius	parameters rearranged in SB
00F0	6	char handle, flt, flt, flt, flt, int		locate char stopped on foot in 2D radius	parameters rearranged in SB
00F1	6	char handle, flt, flt, flt, flt, int		locate char stopped in car in 2D radius	parameters rearranged in SB
00F2	5	char handle, char handle, flt, flt, int		locate char by any means near char in 2D radius	
00F3	5	char handle, char handle, flt, flt, int		locate char on foot near char in 2D radius	

00F4	5	char handle, char handle, flt, flt, int		locate char in car near char in 2D radius	
00F5	8	player handle, flt, flt, flt, flt, flt, flt, int		locate player by any means in 3D radius	parameters rearranged in SB
00F6	8	player handle, flt, flt, flt, flt, flt, flt, int		locate player on foot in 3D radius	parameters rearranged in SB
00F7	8	player handle, flt, flt, flt, flt, flt, flt, int		locate player in car in 3D radius	parameters rearranged in SB
00F8	8	player handle, flt, flt, flt, flt, flt, flt, int		locate player stopped by any means in 3D radius	parameters rearranged in SB
00F9	8	player handle, flt, flt, flt, flt, flt, flt, int		locate player stopped on foot in 3D radius	parameters rearranged in SB
00FA	8	player handle, flt, flt, flt, flt, flt, flt, int		locate player stopped in car in 3D radius	parameters rearranged in SB
00FB	6	player handle, char handle, flt, flt, flt, int		locate player by any means near char in 3D radius	parameters rearranged in SB
00FC	6	player handle, char handle, flt, flt, flt, int		locate player on foot near char in 3D radius	parameters rearranged in SB
00FD	6	player handle, char handle, flt, flt, flt, int		locate player in car near char in 3D radius	parameters rearranged in SB
00FE	8	char handle, flt, flt, flt, flt, flt, flt, int		locate char by any means in 3D radius	parameters rearranged in SB
00FF	8	char handle, flt, flt, flt, flt, flt, flt, int		locate char on foot in 3D radius	parameters rearranged in SB
0100	8	char handle, flt, flt, flt, flt, flt, flt, int		locate char in car in 3D radius	
0101	8	char handle, flt, flt, flt, flt, flt, flt, int		locate char stopped by any means in 3D radius	
0102	8	char handle, flt, flt, flt, flt, flt, flt, int		locate char stopped on foot in 3D radius	
0103	8	char handle, flt, flt, flt, flt, flt, flt, int		locate char stopped in car in 3D radius	
0104	6	char handle, char handle, flt, flt, flt, flt, int		locate char by any means near char in 3D radius	

0105	6	char handle, char handle, flt, flt, flt, flt, int		locate char on foot near char in 3D radius	
0106	6	char handle, char handle, flt, flt, flt, flt, int		locate char in car near char in 3D radius	
0107	5	int, flt, flt, flt, object handle		create object	parameters rearranged in SB
0108	1	object handle		delete object	
0109	2	player handle, int		add player money	
010A	2	player handle, int		check money is greater than value	
010B	2	player handle, var		get player money value	
010C	5	player handle, flt, flt, flt, flt		give rc buggy to player	
010D	2	player handle, int		set player wanted level	
010E	2	player handle, int		set player minimum wanted level	
010F	2	player handle, int		check player wanted level greater than value	
0110	1	player handle		clear player wanted level	
0111	1	int		set wasted busted check	
0112	0			check player wasted or busted	only works in missions
0113	3	player handle, int, int		add ammo to player weapon	
0114	3	char handle, int, int		add ammo to char weapon	
0115	0			unsupported	
0116	0			unsupported	
0117	1	player handle		check player dead	
0118	1	char handle		check char dead	
0119	1	car handle		check car dead	
011A	2	char handle, int		set char hostility	
011B	0			unsupported	
011C	1	char handle		clear char objective	

011D	0			unsupported	
011E	0			unsupported	
011F	0			unsupported	
0120	0			unsupported	
0121	2	player handle, string	 	check player is in zone	
0122	1	player handle	 	check player pressing horn	
0123	2	char handle, player handle	 	check char spotting player	
0124	0			unsupported	special use for memory hacking in Vice City ^[1]
0125	0			unsupported	special use for memory hacking in Vice City ^[1]
0126	1	char handle	 	check char has finished walking	
0127	0			unsupported	
0128	0			unsupported	
0129	4	car handle, char handle, int, char handle	  	create char inside car	parameters rearranged in SB
012A	4	player handle, fit, fit, fit	 	warp player from car to coord	
012B	0			unsupported	
012C	0			unsupported	
012D	0			unsupported	
012E	0			unsupported	
012F	0			unsupported	
0130	1	player handle		check player is busted	simulated in LC mod
0131	0			unsupported	
0132	0			unsupported	
0133	0			unsupported	
0134	0			unsupported	
0135	2	car handle, var		lock car doors	parameters rearranged in SB

0136	0			unsupported	
0137	2	car handle, int	  	check car is model	
0138	0			unsupported	
0139	0			unsupported	
013A	0			unsupported	
013B	6	car handle, flt, flt, flt, flt, int		check if car is dead in 2D area	
013C	8	car handle, flt, flt, flt, flt, flt, flt, int		check if car is dead in 3D area	
013D	0			unsupported	
013E	0			unsupported	
013F	0			unsupported	
0140	0			unsupported	
0141	0			unsupported	
0142	0			unsupported	
0143	0			unsupported	
0144	0			unsupported	
0145	0			unsupported	
0146	0			unsupported	
0147	0			unsupported	
0148	0			unsupported	
0149	1	car handle		check car crushed by car crusher	
014A	0			unsupported	
014B	13	flt, flt, flt, flt, int, int, int, int, int, int, int, var	  	create car generator	parameters rearranged in SB
014C	2	car generator handle, int	  	switch car generator	
014D	4	string, int, int, int		print pager text	simulated in LC mod
014E	—	global var; global var, int	  	display onscreen timer	1 parameter in GTA III, 2 parameters in Vice City and San Andreas

014F	1	global var	  	clear onscreen timer	
0150	2	global var, int	 	display onscreen counter	
0151	1	global var	  	clear onscreen counter

05A7	4	object handle, var, var, var		add velocity relative to object velocity	
05A8	2	object handle, var		get object speed	last opcode available for Vice City

Some abbreviations and phrases used in this list:

int

integer value

flt

floating-point value

var

variable to store a value or handle, either global or local unless specified

char

character including actor and ped, apart from the player and special actor

car

vehicle including car, bike, helicopter, plane, etc. unless specified

parameters rearranged...

opcodes' parameters were rearranged from their original order mainly for sake of readability

simulated in LC mod

opcode has been correctly or mostly simulated to work in the [GTA: Liberty City mod](#) for Vice City
